Maintenance Plan - 2027 - Recap

Update 29.10.26

SeaCorridor

Compressor Station involved	Period	Duration	Qmax disp *[cmc/h @Oued Saf Saf]*	% Reduction of the Technical Capacity *[% @Oued Saf Saf]*	
Fériana A & Sbikha	05.04.27 - 09.04.27	5 days	3.200.000	26%	TTPC
Fériana B & Korba	10.04.27 - 14.04.27	5 days	3.200.000	26%	TTPC
Pipeline Inspection - GTT1	01.05.27 - 31.05.27	14 days*	3.000.000	31%	TTPC
El Haouaria, Sbeïtla, Fériana A/B	01.09.27 - 13.09.27	13 days	1.800.000	59%	TTPC

***** *With regard to the works planned on May, please note that the pipeline inspection will last 14 days, which do not need to be consecutive, and will be communicated over the course of 2027*

For all the activities, the usual assessments are being carried out in order to (i) overlap with any maintenance scheduled by interconnected operators and/or (ii) reduce the number of days of unavailability and/or (iii) mitigate the percentage reduction in transport capacity
